COMPANY PROFILE

LINENS AND MORE

MADE IN ITALY, WITH PASSION

LAVI INTERIORS is the evolution of a family tradition born in the 70s when our first family company was founded, specialized in the production of home linen for our Italian clients; in the 90s the younger generations joined this adventure, new horizons were explored starting a fruitful experience with international and yachting customers, taking part to important international trade fairs: Monaco, Frankfurt, Florence, Moscow and Dubai . From this background in 2011 Paolo Drovandi started a new enterprise, **LAVI INTERIORS** focused on a precise target: high end customers

A FAMILY STORY

“Who runs an enterprise, either a small or an international one, wants to believe that he has created something with his job and passion, a kind of new family where all people involved are really important. When I decided to start my own activity it was natural to me to give it a name taking inspiration from the most important people in my life: my children. I combined their names (Lapo and Viola) and decided to name it **LAVI** ; without any marketing or brand strategy, but following the love and strenght I can find in my family everyday of my life.”

Paolo Drovandi, founder

MADE IN ITALY, WITH PASSION

ONE MISSION

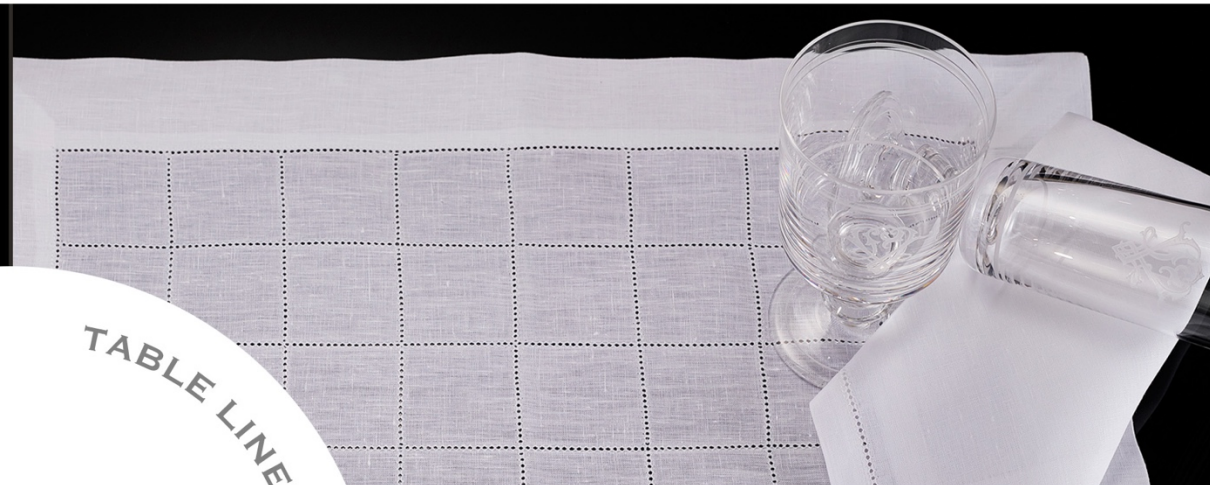

LAVI INTERIORS was born aiming to satisfy the request of the high demanding clientele; the past experiences in the yachting world - taking part at 3 editions of the Monaco Yacht Show - and in the international markets - 10 editions of the Heimtextil fair in Frankfurt - has given us the know-how to create successful collections. In this context, **LAVI INTERIORS** grants the highest quality available, using only Italian fabrics and accessories, managed only by specialized Italian craftsmen, able to work with refined fabrics and customizations. Our clients are architects, interior designers, specilized retail stores dealing with high end clients.

ONE VISION

The future of the Made in Italy home linen will be increasingly addressed to a high-level clientele interested in prestigious products and consequently also much more demanding. Our future is linked to a 100% custom made production, for this reason our target in the coming years will be to expand the network of interior designers, architects, specialized high end shops attentive to the specific needs of their customers so as to offer tailor made products. Our vision will never be a massive production; only an exclusive and client dedicated service.
